

NSGDatacom

Transit Disaster Recovery

Voice, FAX, and Data

The Problem: In mass transit accidents how do you provide Telecom immediately at an emergency site?

The Solution: The NSGDatacom Cellular 2200 series units deliver on the spot voicethrough the cellular data network. FAX, and data are also supported.

- Supports up to 24 simultaneous FAX and Voice calls
- Available in 12. 24. 48 VDC and 120/220 VAC
- Units are 100% portable.

With one cellular broadband pipe you improve response time while increasing the support of essential communications. NSGDatacom technology provides:

- A system that is portable providing immediate telecom and data connectivity.
- Installs in minutes.
- Remotely managed.
- Supports Group 3 FAX and modems
- Compatible with 3G, 4G.
