Mr. William Grant  
Vice President Sales  
NSGDatacom, Inc.  
Suite 100  
3863 Centerview Drive  
Chantilly, VA 20151

Dear Bill,

I would like to express my appreciation and extend my personal thanks to your engineers for working closely with Ports America to provide us with an urgently needed Fax over IP capability between port locations.

Since the AMPS service was terminated we had been unable to find any product that could bridge a standard fax machine to the PSTN using wireless services or the existing LAN connections between our sites. Since you installed the Nx 2205A units we have been able to send and receive fax communications via the local IP network seamlessly through our PBX to the PSTN network.

Not only do the units work flawlessly as claimed, but your technical staff rapidly analyzed our non-standard PBX configurations and configured the units to work completely transparently to our staff.

I would like to extend my sincere thanks and appreciation for the excellent product and service provided by NSGDatacom.

Sincerely,

A handwritten signature in black ink, appearing to read 'AS', is positioned above the typed name of Adam Sulich.

Adam Sulich
